

i. Laboratories with adequate equipment according to syllabi

ii. Usage of available lab infrastructure

The college is well-equipped with laboratories that meet the requirements of the curriculum, ensuring students have access to the necessary tools and equipment for practical learning. The laboratories include Physics, Chemistry, Botany, Zoology, Geography, B.Voc (Retail and Tourism), and multiple computer labs. The usage of the available lab infrastructure is maximized at 100%, allowing students to fully engage in hands-on experiments and research. Photographs of the various labs showcase their modern setup and resources, further enhancing the learning experience across disciplines.
